[General Info](#)[Restrictions](#)[Keep Healthy](#)[Question form](#)

## How to live with COVID-19 in Dublin?

There are many ways to live with COVID-19 in Dublin. You can follow the guidelines from the Health Service Executive (HSE) and the Government of Ireland. This includes staying at home, wearing a face mask, and avoiding large gatherings. You can also get vaccinated against COVID-19. For more information, visit the [HSE website](#).

## What is Coronavirus?

Coronavirus is a family of viruses that can cause illness in humans and animals. The new coronavirus (COVID-19) is a member of this family. It was first identified in Wuhan, China, in late 2019. It spreads from person to person through respiratory droplets. Symptoms include fever, cough, and shortness of breath. For more information, visit the [WHO website](#).

## Symptoms

The most common symptoms of COVID-19 are fever, cough, and shortness of breath. Other symptoms include fatigue, muscle aches, and loss of taste or smell. Symptoms usually appear 2-14 days after infection. For more information, visit the [HSE website](#).

## What to do if you think you are infected

If you think you are infected with COVID-19, you should stay at home and avoid contact with others. You should also get tested for COVID-19. If you are confirmed to have COVID-19, you should follow the guidelines from the HSE and the Government of Ireland. For more information, visit the [HSE website](#).

## Testing Centers

There are many testing centers for COVID-19 in Dublin. You can find a list of testing centers on the [HSE website](#). You can also call the HSE helpline for more information. For more information, visit the [HSE website](#).
